PROFILO SCIENTIFICO

Produzione scientifica

Autrice di più di 175 articoli completi su riviste mediche internazionali sottoposte a revisione e più di 100 pubblicazioni minori e numerosi abstract per congressi scientifici

- Numero di citazioni 2887 (2000-2023)
- Indice H 26 (2000-2023)

Coordinamento e partecipazione a numerosi progetti di ricerca di tipo multicentrico

Partecipazione come Principal Investigator o come Co-investigatore a numerosi studi clinici multicentrici internazionali

Gli interessi scientifici hanno riguardato negli anni più lontani soprattutto i disturbi prolungati di coscienza e la medicina del sonno, temi peraltro mai completamente abbandonati.

Successivamente numerose indagini sono state condotte sulle patologie cerebrovascolari. Negli ultimi anni è cresciuto l'interesse per il tema delle cefalee e per gli aspetti nutrizionali legati ai processi di neuroinfiammazione e neurodegenerazione, con particolare riguardo agli effetti della dieta chetogenica nelle malattie neurologiche.

Numerose pubblicazioni sono frutto della partecipazione a network nazionali ed internazionali, quali quello sull'epilessia post-stroke, coordinato dal Prof. M. Galovic (Zurigo); quello sulla genetica del REM Behavior Disorder e delle alfa-sinucleinopatie, coordinato dal Prof. Z. Gan-Or (Montreal); quello sui biomarkers delle proteine misfolded, coordinato dal Prof. G. Zanusso (Verona); quello sulle crisi epilettiche in corso di terapie riperfusive, coordinato dal Prof. U. Aguglia (Catanzaro); quello sulla dieta chetogenica nelle malattie neurologiche, coordinato dal Dr. C. Di Lorenzo e dal Prof. G. Spera (Roma); quello sulla genetica di malattie rare del SN centrale e periferico, coordinato dal Prof. F. Santorelli (Pisa).

Pubblicazioni dell'ultimo quinquennio (2018-2023)

Sono riportate di seguito soltanto le pubblicazioni su riviste internazionali dotate di revisione critica, con indicazione dell'impatto sulla comunità scientifica degli ultimi 5 anni (Impact Factor e Citation Index). Per brevità non sono state invece riportate le pubblicazioni in abstract, e quelle su riviste prive di revisione critica.
