Satu Kajander-Unkuri (RN, PhD)

is a university lecturer at the Tampere University, Finland. She teaches Master's students in nursing science. Her teaching topics include research methods and the management of evidence-based practice.

She was granted the title of Docent in Health Pedagogy at the University of Turku, Finland in 2024.

Satu's research is focused on the competence of nurses and factors related to it at graduation and in early years of nursing career. Her current research project focuses on developing the competences of Generation Z during nursing education and the effectiveness of various teaching methods. She also examines nurse educators' perspectives on different teaching strategies and their competence in utilizing these methods effectively.
