

VALORISATION & INNOVATION WEBINAR

OPEN SOURCE.

A general introduction to its economic value and the open source licenses.

5th MARCH 2021 | 10.30 - 11.30 AM

Open source software in the academic research has enormous potential to spur innovation, it increases the possibility to have access to funding and it could become a business project.

So how to do that and which are the best licenses to choose?

Carlo DAFFARA

He works on **Open Source Software since 1994.**

He was the Italian representative at the **European Working Group on Libre Software of the European Commission.**

Co-founder and CEO of NodeWeaver and responsible for the open source competence center DiTeDi Digital district

Registration until 4th March 2021 at 12 noon
on www.valorisation.sissa.it/webinar-open-source

The webinar is reserved to SISSA, UniTS and UniUD
