Research ethics and EU funding proposals: focus on Artificial Intelligence (AI)

Online

March 13th, 09:00 – 12:30

DAY 1

- Introduction AI act and other digital legislations
- High level expert Assessment list for trustworthy AI principles (ALTAI)
- EU Ethics self-assessment for Horizon projects
- Workshop self-assessment

March 26th, 09:00 – 12:30

DAY 2

- Workshop guidance ethics
- How research organizations can prepare to embed ethics in AI
- EU Research projects on ethics and AI

Lecturer: Susanna Hommerson is a policy officer research and teacher at Eindhoven University of Technology, specialised in research ethics, integrity, and AI regulation. She has extensive experience in developing compliance infrastructures, providing ethical consultancy for research projects, and leading European initiatives on AI and medical devices. She is Co-Chair of the Ethics Research Integrity Officers Network (ERION) within the European Association for Research Managers (EARMA) and Co-Chair of the Ethical Legal Society Implications (ELSI) workgroup within the Health RI Eindhoven node, actively contributing to the development of AI regulatory frameworks and best practices for EU-funded projects.

A maximum of 40 participants will be admitted.

Attendance certificates will be issued to participants who attend at least 75% of the course.
