PFIZER GLOBAL MEDICAL GRANT - Request of Proposal (RFP) - Antibiotic Stewardship in Pediatrics

The purpose of this RFP is to support antibiotic stewardships in pediatrics. In resource limited settings, antibiotic use in children is common with evidence suggesting both overuse in many settings and underuse in others. Further, differences in usage based on gender and/or class suggest inequities that need to be addressed. Interventions are needed to ensure good stewardship practices are applied to children, one of the most vulnerable populations.

Deadline: **8/7/2021**

PFIZER GLOBAL MEDICAL GRANT - Appropriate Immunization among Patients with Immune-Mediated Inflammatory Diseases (IMIDs)

The aim of this Call is to support the care of patients with Immune Mediated Inflammatory Diseases (IMIDs), including patients under traditional immunosuppressive therapies and advanced therapies, aiming to reduce the impact of vaccine-preventable diseases by improving or facilitating appropriate vaccination practices or/and addressing gaps in vaccination status in those patients

Topics:

- Assessment of gaps in guideline-concordant vaccination practices - development of programs to effectively address those gaps
- Empower medical specialists (Dermatologists, Gastroenterologists, Rheumatologists) in their role of providing recommendation/advice of vaccines in real clinical practice
- Multidisciplinary vaccination care planning including efforts for organizational improvement towards vaccination team building, continuous monitoring, track progress, sharing feedback among vaccination Team

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

- Addressing system-oriented issues that impact vaccination practices
- Mitigating equity and access barriers to vaccination for underserved patient populations including patients who have experienced health- and/or healthcare disparities (i.e., secondary to social determinants of health)

Deadline: **12/07/2021**
