Seminar

# One scientific path from PhD to faculty

**Dr. Michelle Flenniken**

Plant Sciences & Plant Pathology  
Montana State University, USA

**27<sup>th</sup> July 2023, Sala delle Api, at 15:30**

Dr. Flenniken will give a brief overview of her scientific career.

She will also answer questions on career paths, science in the U.S., women in science, the role of scientists in times of crisis, and more!

The goal of this session is to be open and interactive and it is focused on early career scientists, including students and post-docs, but everyone is welcome!

Please come with your questions.
